

FROM OUR PRACTICE TO YOUR FRONT DOOR

Not all websites offering pet medications are safe or reputable. The FDA warns that some sites are fronts for businesses breaking Federal, State or International laws. These illegal pet pharmacies may be selling product that is misrepresented, expired, incorrectly labeled, or dangerous. Other websites may not secure your payment and other personal information, leaving you vulnerable to identity theft. To help protect your pet and provide you peace of mind, our practice offers MyVetStoreOnline, an online store linked within our website. MyVetStoreOnline is backed by an accredited veterinary pharmacy, verified by the National Association of Boards of Pharmacy.

Visit sbc猫doctors.com for home delivery today.

**Keep your pet safe
when purchasing pet
medication online.**

S Stay away from
websites without
.pharmacy domain

A Always check for
site accreditation.

F Follow your
Veterinarian's
recommendations.

E Educate yourself
about online pet
pharmacies.
